

WE ADVISE YOU TO MEET NATIONAL AND FOREIGN REGULATORY STANDARDS ON DATA PRIVACY FIELD.

In SILVA, we advise our clients regarding privacy and personal data processing matters through a methodology of awareness training, auditing, review and elaboration of documents for companies and employees.

Identify the following recommendations on Personal Data Protection and get ready for the impending new regulations:

- Create and update your privacy policies.
- Pinpoint the processes that involve Personal Data.
- Implement mechanisms to obtain and manage the Data Subjects' authorizations for the processing of their Personal Data.
- Identify the Personal Data you process and how they were obtained.
- Respond to ARCO rights requests.
- Review contracts with clients, employees and providers that involve the processing of personal data by or on behalf of your company.
